[manisanjay914@gmail.com](mailto:manisanjay914@gmail.com)

## ◦ SKILLS ◦

Python

Java

JavaScript

## 👤 PROFILE

As a full-stack developer, I am proficient in both front-end and back-end development, giving me the ability to handle all aspects of web application development. I design user interfaces that are responsive and interactive, and I also create the server-side logic, databases, and APIs that power the application.

I work with various languages and technologies, such as:

- **Front-End:** HTML, CSS, JavaScript, and frameworks like React, Angular, or Vue.js to build dynamic user interfaces.
- **Back-End:** Node.js, Express, Python (Django, Flask), Ruby, or Java for building server-side functionality and managing databases.
- **Databases:** You work with both relational (MySQL, PostgreSQL) and NoSQL (MongoDB) databases.
- **Version Control:** Git, GitHub, or GitLab to manage code changes and collaborate with teams.
- **Deployment:** Experience with cloud services (AWS, Azure, Google Cloud) and containerization tools like Docker and Kubernetes for deployment and scaling.

With my expertise in the full development cycle, from UI/UX design to server management and deployment, I bring versatile skills that allow you to build and maintain complete, functional web applications.

## 🎓 EDUCATION

B.Sc Computer Technology, KG College Of Arts and Science, Coimbatore  
May 2023 — May 2026  
Preparing to Graduate.

## 🔧 COURSES

- Coursera (10+)
